

VARIETY OF PATTERNS EXPANDS DESIGN OPTIONS

Whitacre-Greer dry-pressed pavers lend themselves to a wide variety of patterns to enhance your sidewalks, streetscapes, driveways and other brick paving projects.

Here are 16 suggested patterns for standard size 4x8 bricks alone.

8x8, 4x4 PAVERS ADD VARIETY AND BEAUTY TO PAVING PROJECTS

New 4x4 and 8x8 pavers add flexibility of design and greatly increase the number of available patterns. The new sizes, coupled with Whitacre-Greer's variety of earth-tone colors, now offer the widest possible array of colorful designs for residential, commercial and civic applications.

ARCHITECTURAL SPECIFICATIONS

Paving Brick: Whitacre-Greer Vacuum Dry-Press Pavers solid (uncored) hard-burned, frost-free complying with Pedestrian ASTM C902, Class SX, Type 1, Application PX, 8,000 psi minimum average compressive strength, 8% maximum average absorption for walkways; and with Heavy Vehicular ASTM C1272, Type F, Application PX, 10,000 psi minimum average compressive strength, 6% maximum average absorption for streets. Color to be selected by owner's representative.
